

PreciseSound™ by dB Hearing

PreciseSound™ range of custom hearing products — designed to enhance the listening experience for users of earphones for professional use or just for pleasure. Products range from the simple customisation of existing earphones to fully customised earphones and “In Ear Monitors” for use on stage by musicians.

PreciseSound™ products offer many advantages to the wearer which include:

- Perfect comfortable fit and sound isolation
- Designed to enhance audio output
- Safer due to reduced listening levels
- Digitally produced for accuracy
- Several years life expectancy
- Hands free models available for Android and Apple devices
- Made from bio-compatible silicone with anti-bacterial coating
- Quality earphone products from manufacturers such as Shure™ and Sennheiser™

PreciseSound™ Shure 535 Triple Driver .
